

Top 10 reasons why your child should be at our Active Scholars camp this summer:

- 1. Guest appearances by inspirational role models** from IBM, Nike, Warner Bros, as well as Varsity and Professional athletes.
- 2. Engaging curriculum developed and delivered by certified teachers.**
- 3. Our curriculum is designed to meet our individual Scholar's ability and level.** Our teachers and coaches adapt to individual needs and take the time to ensure that our Scholars are expanding and exploring through daily STEM and sports challenges.
- 4. Certified and experienced coaches** who have worked with children for years developing their craft on the court or on the field.
- 5. Our Scholars engage in 21st century learning** with an emphasis on further developing creativity, collaboration, problem solving and so much more!
- 6. Friday Fun Days** feature a variety of competitions and prizes.
- 7. Our Scholars develop problem solving skills** from daily challenges as they learn how to overcome failure.
- 8. Two camps for the price of one!** Engaging children for 7.5 hours isn't an easy task. So when the kids get to have a mix of STEM and sports in one camp, they get the best of both worlds! Our Scholars never stop learning and growing!
- 9. Free sport moisture t-shirt.**
- 10. The squeals of delight, laughs and smiles are all worth it.**

"From sports to science, they
enjoyed every moment of it.
They looked forward to going
to camp every day." *Anita
Hing, parent of 2 boys*
